

2020

STATE HEALTHCARE IT CONNECT SUMMIT UPDATE

March 17, 2020

Coronavirus (COVID-19 Update)

At this time, 2020 State HIT Connect Summit is cancelled.

With a rapidly evolving State and Federal response to the COVID-19 outbreak, the originally scheduled (April 27-29) in-person event has been cancelled.

Initially, in response to the cancelation, Healthcare IT Connect had explored hosting the program virtually, however, since that avenue was explored it has become apparent that during this period of national emergency, coordination of federal, state HIT participants would simply not be feasible.

The 2020 State HIT Connect Summit has been postponed until later in the year.

All Ticket holders for the summit will be notified and registrations will be transferred for the rescheduled meeting, dates will be confirmed in the coming weeks. We are grateful for your understanding during a difficult time and look forward to sharing the 2020 program details with you later in the year.

The Team Healthcare IT Connect
